Our story

Timea Nagy is a Best-Selling Author and Canadian Survivor of Sex Trafficking. Her story has reached millions of people around the world. Michelle Furgielle is also a Canadian Survivor of Sex Trafficking as well as an International speaker and educator.

They met in 2011 and quickly formed a strong bond while presenting together, sharing their story at conferences on Human Trafficking across Canada. Their shared passion for organic products designed to reduce anxiety inspired the creation of Timea's Market. The Co-founders also aimed to support other survivors navigating the court system, those embarking on their healing journeys, and frontline workers in high-stress environments.
